Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product identifier

**Product Name**
- Isopropyl Alcohol, Reagent Grade, TSI P/N 8016, 8016M

**Synonyms**
- 2-propanol; IPA; Isopropanol; sec-propyl alcohol

**SDS Number/Grade**
- Document Number 6010486 Rev A
- Container size: box of x16 bottles, 30ml each. Box contains less than 500ml of liquid.

1.2 Relevant identified uses of the substance or mixture and uses advised against

**Relevant identified use(s)**
- For use in PortaCount® Respirator Fit Tester and Condensation Particle Counters

1.3 Details of the supplier of the safety data sheet

**Manufacturer**
- TSI Incorporated
  - 500 Cardigan Road
  - Shoreview, MN 55126
  - United States
  - answers@tsi.com
  - www.tsi.com

**Telephone (General)**
- +1-800-874-2811

1.4 Emergency telephone number

**Manufacturer**
- +1-800-424-9300 - Chemtrec

Section 2: Hazards Identification

**EU/EEC**

2.1 Classification of the substance or mixture

**CLP**
- Flammable Liquids 2 - H225
- Eye Irritation 2 - H319
- Specific Target Organ Toxicity Single Exposure 3: Narcotic Effects - H336

2.2 Label Elements

**CLP**

**DANGER**

**Hazard statements**
- H225 - Highly flammable liquid and vapour
- H319 - Causes serious eye irritation
- H336 - May cause drowsiness or dizziness
Precautionary statements

Prevention
- P210 - Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- P233 - Keep container tightly closed.
- P240 - Ground and/or bond container and receiving equipment.
- P241 - Use explosion-proof electrical/ventilating/lighting/equipment.
- P242 - Use only non-sparking tools.
- P243 - Take precautionary measures against static discharge.
- P261 - Avoid breathing mist, vapours and/or spray.
- P264 - Wash thoroughly after handling.
- P271 - Use only outdoors or in a well-ventilated area.
- P280 - Wear protective gloves/protective clothing/eye protection/face protection.

Response
- P370+P378 - In case of fire: Use appropriate media for extinction.
- P304+P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing.
- P312 - Call a POISON CENTER/doctor if you feel unwell.
- P303+P361+P353 - IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
- P361 - Take off immediately all contaminated clothing.
- P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
- P337+P313 - If eye irritation persists: Get medical advice/attention.

Storage/Disposal
- P403+P233 - Store in a well-ventilated place. Keep container tightly closed.
- P235 - Keep cool.
- P405 - Store locked up.
- P501 - Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other Hazards

CLP
- According to Regulation (EC) No. 1272/2008 (CLP) this material is considered hazardous.

Section 3 - Composition/Information on Ingredients

3.1 Substances

<table>
<thead>
<tr>

</tr>
</tbody>
</table>

3.2 Mixtures
- Material does not meet the criteria of a mixture.

Section 4 - First Aid Measures

4.1 Description of first aid measures
Inhalation • Move victim to fresh air. Administer oxygen if breathing is difficult. Give artificial respiration if victim is not breathing.

Skin • In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing. Wash skin with soap and water. Get medical attention if symptoms occur.

Eye • In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If easy to do, remove contact lenses, if worn. Get medical attention.

Ingestion • Call a physician or poison control center immediately. Do NOT induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get in the lungs.

4.2 Most important symptoms and effects, both acute and delayed • Refer to Section 11 - Toxicological Information.

4.3 Indication of any immediate medical attention and special treatment needed Notes to Physician • All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5 - Firefighting Measures

5.1 Extinguishing media Suitable Extinguishing Media • CAUTION: For mixtures containing a high percentage of an alcohol or polar solvent, alcohol-resistant foam may be more effective. LARGE FIRES: Water spray, fog or alcohol-resistant foam. SMALL FIRES: Dry chemical, CO2, water spray or alcohol-resistant foam.

Unsuitable Extinguishing Media • Avoid using direct water stream.

5.2 Special hazards arising from the substance or mixture Unusual Fire and Explosion Hazards • HIGHLY FLAMMABLE: Will be easily ignited by heat, sparks or flames. Containers may explode when heated. Many liquids are lighter than water. Vapors may form explosive mixtures with air. Most vapors are heavier than air. They will spread along ground and collect in low or confined areas (sewers, basements, tanks). Vapors may travel to source of ignition and flash back. Vapor explosion hazard indoors, outdoors or in sewers. Runoff to sewer may create fire or explosion hazard.

Hazardous Combustion Products • No data available

5.3 Advice for firefighters • Structural firefighters' protective clothing will only provide limited protection. Wear positive pressure self-contained breathing apparatus (SCBA). Move containers from fire area if you can do it without risk. LARGE FIRES: Cool containers with flooding quantities of water until well after fire is out.

Section 6 - Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures Personal Precautions • CAUTION: Victim may be a source of contamination. Do not walk through spilled material. Use appropriate Personal Protective Equipment (PPE)

Emergency Procedures • As an immediate precautionary measure, isolate spill or leak area for at least 50 meters (150 feet) in all directions. If tank, rail car or tank truck is involved in a fire, ISOLATE for 800 meters (1/2 mile) in all directions; also, consider initial evacuation for 800 meters (1/2 mile) in all directions. LARGE SPILL: Consider initial downwind evacuation for at least 300 meters (1000 feet) ELIMINATE all ignition sources (no
smoking, flares, sparks or flames in immediate area). Keep unauthorized personnel away. Stay upwind. Ventilate closed spaces before entering.

6.2 Environmental precautions

- Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and material for containment and cleaning up

**Containment/Clean-up Measures**

- Stop leak if you can do it without risk.
- Absorb or cover with dry earth, sand or other non-combustible material and transfer to containers.
- Use clean non-sparking tools to collect absorbed material.
- A vapor suppressing foam may be used to reduce vapors.
- All equipment used when handling the product must be grounded.
- LARGE SPILLS: Dike far ahead of liquid spill for later disposal.
- LARGE SPILLS: Water spray may reduce vapor; but may not prevent ignition in closed spaces.

6.4 Reference to other sections

- Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

### Section 7 - Handling and Storage

7.1 Precautions for safe handling

**Handling**

- Keep away from heat, sparks, and flame. Keep from direct sunlight. Do not use sparking tools. Take precautionary measures against static charges. All equipment used when handling the product must be grounded. Wear appropriate personal protective equipment, avoid direct contact. Wash thoroughly with soap and water after handling and before eating, drinking, or using tobacco.

7.2 Conditions for safe storage, including any incompatibilities

**Storage**

- Store in a tightly closed container. Store in a cool/low-temperature, well-ventilated place. Ground and bond container and receiving equipment. Keep away from food, drink and animal feeding stuffs.

7.3 Specific end use(s)

- Refer to Section 1.2 - Relevant identified uses.

### Section 8 - Exposure Controls/Personal Protection

8.2 Exposure controls

Engineering Measures/Controls
- Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Use explosion-proof electrical/ventilating/lighting/equipment.

Personal Protective Equipment
- Respiratory
  - Follow the respirator regulations found in HSE 282/28 or European Standard EN 149. Use a European Standard EN 149 or HSE 282/28 approved respirator if exposure limits are exceeded or symptoms are experienced.
- Eye/Face
  - Wear protective eyewear (goggles, face shield, or safety glasses).
- Skin/Body
  - Wear chemical resistant gloves.

Environmental Exposure Controls
- Controls should be engineered to prevent release to the environment, including procedures to prevent spills, atmospheric release and release to waterways. Follow best practice for site management and disposal of waste.

Additional Protection Measures
- An eye wash and safety shower must be available in the immediate work area.

Key to abbreviations
- LLV = Limit Level Value is the exposure limit for 8-hour work day
- MAK = Maximale Arbeitsplatz Konzentration is the maximum permissible concentration
- STEL = Short Term Exposure Limits are based on 15-minute exposures
- TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

9.1 Information on Basic Physical and Chemical Properties

General Properties
- Boiling Point: 82 °C (179.6 °F)
- Melting Point/Freezing Point: -88.5 °C (-127.3 °F)
- Decomposition Temperature: Data lacking
- pH: Data lacking
- Specific Gravity/Relative Density: 0.79 @ 20 °C (68 °F) Water=1
- Water Solubility: Miscible
- Viscosity: Data lacking
- Explosive Properties: Data lacking
- Oxidizing Properties: Data lacking

Volatile
- Vapor Pressure: 6 kPa @ 25 °C (77 °F)
- Vapor Density: 2.1 Air=1
- Evaporation Rate: 2.8 n-Butyl Acetate = 1
9.2 Other Information

- No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

- No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

- Stable under normal temperatures and pressures.

10.3 Possibility of hazardous reactions

- Hazardous polymerization will not occur.

10.4 Conditions to avoid

- Heat, sparks, flames, sunlight.

10.5 Incompatible materials

10.6 Hazardous decomposition products

- Thermal decomposition may release oxides of carbon.

Section 11 - Toxicological Information

11.1 Information on toxicological effects

### Potential Health Effects

#### Inhalation

**Acute (Immediate)**
- May affect the central nervous system. Symptoms may include dizziness, drowsiness, lethargy, coma and death. May cause irritation to the mucous membranes and upper respiratory tract.

**Chronic (Delayed)**
- No data available.

#### Skin

**Acute (Immediate)**
- May cause irritation.

**Chronic (Delayed)**
- No data available.

#### Eye

**Acute (Immediate)**
- Causes serious eye irritation.

**Chronic (Delayed)**
- No data available.

#### Ingestion

**Acute (Immediate)**
- May cause irritation. May cause nausea, stomach pain and vomiting.

**Chronic (Delayed)**
- No data available.

### Key to abbreviations

- **LC** = Lethal Concentration
- **LD** = Lethal Dose
- **TC** = Toxic Concentration

---

### Section 12 - Ecological Information

#### 12.1 Toxicity

- Material data lacking.

#### 12.2 Persistence and degradability

- Expected to be readily biodegradable.

#### 12.3 Bioaccumulative potential

- Material data lacking.

#### 12.4 Mobility in Soil

- Material data lacking.
- This product is partly soluble in water. May spread in the aquatic environment.

12.5 Results of PBT and vPvB assessment
- No PBT and vPvB assessment has been conducted.

12.6 Other adverse effects
- The product components are not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spill can have a harmful or damaging effect on the environment.

Section 13 - Disposal Considerations

13.1 Waste treatment methods
Product waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
Packaging waste
- Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Section 14 - Transport Information

<table>
