

FITPRO+™ FIT TEST SOFTWARE FOR PORTACOUNT® PRO AND PRO+ RESPIRATOR FIT TESTERS

FitPro+™ Fit Test Software makes fit testing simple and foolproof. Included with every PortaCount Pro and PortaCount Pro+ Respirator Fit Tester, the program automatically leads you through the fit test protocol step by step – you can't make a mistake. Your fit test results are stored in a database for easy report generation, retrieval and regulatory compliance.

Computer Requirements

- + Microsoft® Windows® 7 (32 and 64 bit), Windows 8 (32 and 64 bit), or Windows 10 (32 and 64 bit) operating system
 - + Microsoft .Net version 4 (installation software will install Microsoft .NET automatically, if necessary)
- Note**—An Internet connection is required to install Microsoft .NET
- + >1 GHz processor
 - + >1280x800 screen resolution monitor
 - + 500 MB free space on hard drive
 - + 1 free USB port
 - + CD-ROM reader or internet connection (to install the software)

Features and Benefits

- + Operate up to four (4) PortaCounts simultaneously using one computer (PortaCount Models 8030/8038 only)
- + Select between new Horizontal or Vertical Fit Test Dashboard
- + Automates fit test process using built-in fit test exercise protocols
- + Microsoft Access® default database (optional support for server-based Microsoft SQL Server®)
- + User Interface in five languages (English, German, Polish, French and Spanish)
- + Comprehensive database management functionality (merging, moving, copying and deleting records; exporting databases; and backup and restoring of data)
- + Maintains separate databases for different departments/locations
- + Easily transfers records between PortaCount Fit Testers using a flash drive
- + Wide-range of reporting and printing capabilities, including individual fit test reports, due or past due fit test reports, custom reports, and printing of individualized fit test cards (using card-form paper or optional card printer)
- + Real-time fit factor display and fit testing emulators for respirator training and familiarization

SPECIFICATIONS

FITPRO+ FIT TEST SOFTWARE FOR PORTACOUNT PRO AND PRO+ RESPIRATOR FIT TESTERS

Fit Test Report and Card Printing Options

FitPro+ is designed to improve your respirator program and help protect workers through easy generation of individualized fit test reports inclusive of personal wallet cards. The wallet cards provide documentation of the completed fit test and easy field verification of proper respirator size and model for authorized respirator users.

The reports can be printed by plugging a USB printer directly into the PortaCount Pro/Pro+ Respirator Fit Tester. Exclusive card-form paper is available direct from TSI that provides for the convenient, durable tear-out wallet card.

FitPro+ Fit Test Software also maintains the ability to print fit test results to an external ID card printer.
