

# PARTS FOR 1050 SERIES SYSTEMS

---

## FREQUENTLY ASKED QUESTION #5

### Question:

I have a dual channel 1054B hot wire/hot film system. The system is very old but it has worked fine. Now I would like to buy a new 5m probe cable.

Are parts still available for 1050 series systems?

### Answer:

Although our current probes and probe holders will still be compatible, the 1050 series electronics are all officially obsolete. Therefore, cables and connectors are also no longer available. The venerable 1050 series systems have served their purpose well for many many years, but we simply cannot get parts any more. Please consider replacing the system with an IFA300 based unit.

Obsolete 1050 series Thermal Anemometer Power Supply

IFA300 System
